

DIT 3-1 FINAL DEFENSE
Prof. Fernando V. Lipardo - Adviser
 10:00 AM – 3:00 PM | June 5, 2025

OJTPortal: A Web-based Application of On-The-Job Training Monitoring and Information System of the PUP - ITECH	PANEL	QUESTION/FEEDBACK	ACTION TO BE TAKEN
ESGUERRA CAMBAL ACUNA DUENAS FRANCISCO BAILON MARATAS	Prof. Edrian Blasquino	- Chapter 5 - Survey (45 respondents) - Chapter 2: minimum and maximum of RRL.	- Proposed type: no time for the survey. Not yet analyzed. <i>Revised the 20 authors are just like they are having a conversation (NO PERSONAL INPUT ON THE RRL).</i> <i>Identify all the items on the tables.</i> <i>All the values should appear on the paper.</i> <i>Population size – number of OJT advisers are 9 ITECH advisers ay 8.</i> <i>Complete all the data gatherings.</i> <i>Implementation plan – matrix that you have a feasibility study.</i> <i>Suggest AI integration or mobile app development.</i>
	Prof. Jonnalyn Apsay		<i>Conceptual framework – you used TAM, it should match</i>

			<i>with your theoretical framework.</i>
	Prof. Nikkolai Andaya	• Change the DFD into Flow Chart. • Flowchart – you need to revise it. • System	• <i>Recommendations: why there's 'Identify yourself'? – remove this.</i> • <i>All the log – ins should only one – and it depends on the access level.</i> • <i>SIS number of Admin – change the employee number/institutional email.</i> • <i>Add another coordinator or administrator – no need to register an admin.</i> • <i>Separate table for adding the list of advisers.</i> • <i>Dropdown – all the sections to minimize the errors.</i> • <i>You need to add validation on calendar or time.</i> • <i>Add trash to restore the data.</i> • <i>Portfolio should have a history transaction on the tables.</i> • <i>Arrange all the process.</i> • <i>Every MOA have all the expiration – list of MOAS linked to ITECH.</i> • <i>Ask for Ma'am May's OJT Process.</i> • <i>Improve the validation process in negative values.</i> • <i>Schedule for consultation. – free validation</i>

	Prof. Mark Bautista	Chapter 4 -	<i>We don't have any hypothesis testing</i> <i>Use Descriptive</i> <i>Population – pag buong ITECH – you should know the whole population/sample size – DIT (223 – the researchers come up with 45 respondents)</i> <i>The researchers should add the whole population of ITECH and use Slovin Formula.</i> <i>You need to get survey from IT, engineering – to have a valid result.</i>
	Prof. Camilo P. Abogado	The endorsement and portfolio can fetch on the system and on the database system.	<i>Insurance, consent form and MOA.</i> <i>Table for MOA – expired or valid.</i>
	Prof. John Michael Legaspi		
Deliberation			<i>Paper – need to have minor revision.</i> <i>System – major revision</i> <i>Add a proper process flow.</i>
